US	AERODYNAMIC CUTTING SYSTEM	86/816180	11-Nov-2015	5,005,350	19-Jul-2016	(int. cl. 7) Agricultural machines, namely, cultivators, harvesters, disk harrows, seeders, combine harvesters, and rice planters; agricultural implements, namely, tractor-towed agricultural implements, namely, plows, harrows, mowers, and reapers; agricultural attachments, namely, mechanical and hydraulic arms for use as bale carriers; lawnmowers and replacements parts therefor; riding lawn mowers (int. cl. 12) Tractors	Registered
US	AFTALLOY	85/811229	27-Dec-2012	4,550,056	17-Jun-2014	(int. cl. 6) Metal pipes and tubes; metal pipe and tube fittings, namely, metal junctions for pipes, metal flanges, cylindrical junctions of metal for pipes, and elbows of metal for pipes (int. cl. 11) Parts for industrial and pyrolytic furnaces, namely, reaction tubes of metal for use in producing hydrogen and petrochemicals; parts for industrial and pyrolytic furnaces, namely, cracking tubes of metal for ethylene production for pyrolysis furnaces and pyrolysis tubes of metal for hydrocarbon production	Registered
US	BI-SPEED TURN	73/796087	27-Apr-1989	1,576,283	9-Jan-1990	(int. cl. 12) Agricultural tractors	Registered
US	DIAG MASTER	85/418965	9-Sep-2011	4,396,763	3-Sep-2013	(int. cl. 9) Computers and computer peripherals; computer software for machine and engine testing; computer software for testing and analysis of machines and engines; computer software for diagnosis other than for medical purposes, namely, for diagnosing and troubleshooting problems with machines and engines; engine testing apparatus, namely, wheel diagnostic and repair computer hardware; engine testers; engine diagnostics systems, namely, sensors to determine engine oil level, and sensors to determine engine timing and transmission shift-rail position; engine diagnostic testers	Registered
US	 DUALSPEED (stylized)	78/582638	8-Mar-2005	3,219,033	13-Mar-2007	(int. cl. 12) Tractors; tractors, mower implements, loader implements, and blades, sold together as a unit	Registered
US	EASY CHECKER	73/555037	23-Aug-1985	1,388,156	1-Apr-1986	(int. cl. 9) Warning light panels for tractors, comprising visual indicators for fluid level and mechanical malfunction	Registered

US	EASY-OVER	86/515619	27-Jan-2015	5,096,099	6-Dec-2016	(int. cl. 7) Agricultural machines namely, gear cutters, rechargeable brush cutters in the nature of hedge cutters, combines, threshers, backhoes, reapers, reapers and binders in the nature of hay binding machines, automated transplanting machines, namely, transplanting machines for transplanting seedlings and rice, power-operated agricultural sprayers and pumps for agricultural sprayers; agricultural implements other than hand-operated, namely, loaders, grass catchers, blades, snow blowers, blowers, sweepers, and rotary tillers, all being working implements for attachment to agricultural tractors; attachments for agricultural machines, namely, tilling machines for attachment to tractors, cargo handling machines for attachment to tractors, cultivating machines for attachment to tractors, harvesting machines for attachment to tractors, fertilizing machines for attachment to tractors, seeding machines for attachment to tractors, weeding machines for attachment to tractors, and mowing machines for attachment to tractors; lawn mowers and riding lawn mowers and attachments therefor, namely, mower decks, power mower blades, loaders, grass catchers, blades, snow blowers, blowers, rotary sweepers, hitches for attaching working implements to lawnmowers, and rotary tillers; structural parts for all aforesaid goods (int. cl. 12) Tractors; tractors with various machines attached, namely, tractors with tilling machines, tractors with cargo handling machines, tractors with cultivating machines, tractors with harvesting machines, tractors with fertilizing machines, tractors with seeding machines, tractors with weeding machines, and tractors with mowing machines; structural parts for tractors	Registered
US	E-CDIS	76/123383	5-Sep-2000	2,875,181	17-Aug-2004	(int. cl. 7) Motors and engines for machines and parts and fittings therefor	Registered
US	 ECO PLUS (& design)	85/812853	31-Dec-2012	4,395,312	3-Sep-2013	(int. cl. 7) Construction machines, namely, backhoes	Registered
						(int. cl. 1) Industrial chemicals, namely, potassium titanate, calcium titanate, alkali metal titanate, alkali earth metal titanate, titanic acid alkali metal salts, titanic acid alkali earth metal salts, potassium titanate powders, calcium titanate powders, alkali metal titanate powders, alkali earth metal titanate powders, powders of titanic acid alkali metal salts, powders of titanic acid alkali earth metal salts, composite compounds of titanic acid alkali metal salts and titanic acid alkali earth metal salts, composite compounds of titanic acid alkali earth metal salts and chemicals, composite compounds of titanic acid alkali metal salts and titanic acid alkali earth metal salts and chemicals, compounds of amorphous composite titanic acid alkali metal, and compounds of amorphous composite titanic acid alkali earth metal; enzyme preparations for plant growing; agricultural and horticultural enzyme preparations for use in the biotechnology, paper-making, pulp-processing and food and beverage making industries; chemicals for use in the manufacture of a wide variety of goods; soil conditioning preparations; plant growth regulating preparations; culture soil in the nature of potting soil; fertilizers (int. cl. 4) Lubricating oils being industrial lubricants; lubricating greases

						<p>(int. cl. 6) Pipes of cast iron; iron pipes; pipes of cast steel; metal rollers for glass conveyance; metal rollers for steel plate conveyance; hearth materials for slab heating furnaces, namely, steel and iron skid buttons for re-heating furnaces; metal reaction tubes; metal rollers for paper-making; metal junctions for pipes; metal valves, not being parts of machines; steel pipes; deformed pipes and tubes, of metal; metal pipes; metal valves not being parts of machines for water pipes; cylindrical junctions, of metal, for pipes; metal elbows for pipes; metal pipes for pipeline; metal branch pipes; metal flanges; drain pipes of metal; water pipes of metal; collecting pipes of metal; metal materials for building and construction utilizing thermal expansion members for prevention of fire, disaster or accidents, namely, members for attachment to collecting drainpipes to block drain lines; metal tubes in the nature of pyrolysis tubes for hydrocarbon production; metal tubes in the nature of reaction tubes for hydrogen production; cast iron steels; metal sluice gates equipped with drain pumps; metal tubes for industrial use, namely, cast steel cracking tubes for pyrolysis furnaces for use in petrochemical industry; metal tubes for industrial use, namely, cracking tubes for industrial furnaces; liquid storage tanks of metal; industrial water storage tanks of metal; chemical storage tanks of metal for the treatment of wastewater; industrial water storage tanks of metal for the treatment of wastewater; liquid storage tanks of metal for the treatment of wastewater; metal reaction tubes for plants</p> <p>(int. cl. 7) Power-operated blowers; pumps, namely, vane pumps, rotary pumps, mixed flow pumps, axial flow pumps, centrifugal pumps and vacuum pumps for use in agricultural irrigation and drainage, for use in waterworks, for use in sewage systems, for use in thermal power systems, for use in building air conditioning and for use in industrial waterworks; parts, accessories and fittings of pumps, namely, pump packings, pump bearings, pump sleeves, pump casings and pump sliding members; drain pumps; slurry pumps; centrifugal pumps; vacuum pumps; pump impellers; bearings as parts of machines, namely, pump bearings; watertight packings for inserting between a pump casing and pump bearings and for inserting in a split pump casing; gas separation apparatus, namely, turbines for use in gas separation; lubrication apparatus, namely, lubrication machines; pump controllers, namely, pump control valves; water turbines for use in hydroelectric power generation; hydraulic generators; power transmission devices, namely, power transmissions for machines; mill rolls, namely, roughing work rolls and plate mill-work rolls for use in hot strip mills, finishing work rolls for use in hot strip mills, pinch rolls for use in down coilers, intermediate and finishing rolls for use in heavy section mills, roughing rolls for use in medium and light section mills, finishing rolls for use in medium and light section mills, edger rolls, horizontal rolls for use in universal mills, and vertical rolls for use in universal mills; metalworking machines, namely, mills, bending machines, boring machines, broaching machines, cutting machines, drilling machines, grinding machines, honing machines, lapping machines, machining centers, milling machines, perforating machines, planing machines, shaping machines, shearing machines, and slotting machines; metalworking machine tools; petrochemical machines and apparatus; metal valves being machine elements not for land vehicles; waste compacting machines and apparatus; waste crushing machines and apparatus; waste smashing machines and apparatus; waste processing machines and apparatus for household use, namely, composters and waste compactors; ceramic membrane filtration apparatus, organic membrane filtration apparatus, and membrane filtration apparatus, namely, filtration apparatus for use in the purification of wastewater and sewage;</p>	

Country	Mark	Ser. No.	Date Filed	Reg. No.	Date Reg.	Goods/Services	Status
						<p>filters for membrane filtration apparatus and filter units for membrane filtration apparatus, namely, filters and filter units for filtration apparatus for use in the purification of waste water and sewage; filter casings for filtration apparatus for use in the purification of waste water and sewage; replacement membrane cartridges for membrane filtration apparatus, namely, replacement membrane cartridges for filtration apparatus for use in the purification of waste water and sewage; replacement membranes for membrane filtration apparatus, namely, replacement membranes for filtration apparatus for use in the purification of waste water and sewage; aeration tubes, namely, diffuser tubes, for membrane filtration apparatus, namely, aeration tubes for filtration apparatus for use in the purification of waste water and sewage; sludge dehydration machines, namely, machines that dewater sludge by compacting the water or by centrifuging the water to reduce the water content and volume of the sludge; waste dehydration machines, namely, machines that dewater waste by compacting the water or by centrifuging the water to reduce the water content and volume of the waste; sludge conveyors being machines; blades for waste crushing machines; walk-behind tractors for agricultural use, namely, tillers; combine harvesters; reapers and binders in the nature of hay binding machines; harvesting machines, namely, harvesters; power tillers; cultivation control machines in the nature of power-operated cultivators; threshing machines; rice huskers; fertilizer distributing machines in the nature of fertilizer spreaders; reapers being agricultural machines; power machines for mowing; soil disinfection machines in the nature of attachments for working vehicles, namely, tractors and tillers; ditchers being ploughs; ridgers being ploughs; transplanting machines, namely, automated transplanting machines for transplanting seedlings; mulch laying machines; mulch film removing machines; sowers being machines; soil scattering machines for seedling boxes; incubators for germination of seeds and seedlings; cultivators being agricultural machines; weeding machines; agricultural machines, namely, blight prevention machines; vegetable harvesting machines in the nature of harvesters;</p> <p>vegetable processing machines, namely, vegetable cutting machines, vegetable slicing machines, vegetable peeling machines, vegetable grating machines and vegetable sorting machines; vegetable graders, namely, carrot length graders, rotary graders for sorting vegetables according to size, roller graders for grading vegetables by diameter, electronic color sorters, and specific gravity separators; fruit graders, namely, electronic color sorters, specific gravity separators, and electronic fruit graders; cereal graders being cereal grating machines; foreign matter sorting machines; vegetable washing machines; vegetable trimming machines; vegetable packing machines; vegetable binders being machines; nursery boxes being part of transplanting machines; lawnmowers being machines; lawn husbandry machines, namely, power sprayers, engine set power sprayers, backpack power mist sprayers, backpack power mist/dusters; backpack power sprayers, high clearance boom sprayers, stereo sprayers, namely, self-propelled orchard sprayers, boom sprayers, carpet dusters, soil injectors, super spouters, low-volume sprayers, super shuttles, water pumps, brushcutters, string trimmers, blowers, green injectors, green sprayers, and green spouters; backhoes; construction machines, namely, excavators, backhoes, loaders, concrete crushers, asphalt crushers, rock crushers and dozers; pile-drivers; earth augers; earth scrapers; tamping machines; crop drying machines; industrial rice rinsing machines; industrial food ingredient mixers; industrial rice or barley polishing machines; skid-steer loaders; washing machines for agricultural machines; wax-polishing machines for agricultural machines; engines, other than for land vehicles; engine generators; engine compressors; engine-driven welding machines; machine shafts being camshafts; bearings being machine elements not for land vehicles; shaft couplings or connectors being machine elements not for land vehicles; reduction gears being machine elements not for land vehicles; speed change gears being machine elements not for land vehicles; cams in the nature of machine elements not for land vehicles;</p>	

Country	Mark	Ser. No.	Date Filed	Reg. No.	Date Reg.	Goods/Services	Status
						<p>toothed wheels in the nature of gears being machine elements not for land vehicles; springs being machine elements not for land vehicles; shock absorbers being machine elements not for land vehicles; power transmission belts being machine elements not for land vehicles; parts of motors and engines, namely, assembly piston rings, oil seals, inlet valves, cylinder liners, rubber absorbers, exhaust valves, liner O-rings, assembly connecting rods, assembly fuel filters, gaskets, cams, oil filters, air cleaning elements in the nature of cartridges for air filters for engines for agricultural machines; water pumps being parts of machines, engines or motors; crankcases for motors and engines; gear cases for motors and engines; clutch housings being machine parts; crankshafts for machines and engines; crankcases for machines, motors and engines; control valves for engines; cylinder blocks for engines other than for land vehicles; cylinder heads for engines; gearbox casings in the nature of gearboxes other than for land vehicles; counter balancing weights for attachment to the front end or rear end of vehicles such as tractors and transportation vehicles and machines such as rice transplanting machines and tilling machines to keep anteroposterior weight balance when they are equipped with working attachments such as front-end loaders, backhoes, earth augers, fertilizer applicators, seed sowers and weed killer spreaders; pistons being parts of machines or engines; machine fly-wheels; metal caps being parts of machines or engines; crankpin bearings being parts of machines or engines; monoblocks being parts of engines for agricultural machines; cylinder liners being parts of machines or engines; rubber shock absorbers other than for land vehicles; rod housings being machine parts; cylinder head covers for engines; bearing cases being machine parts; speed governors for engines; nozzle holders for engines; fuel pumps for engines; water flanges for engines; thermostats for engines; exhaust manifold for engines; clutch housings being machine parts other than for land vehicles;</p> <p>axle cases for machines being machine parts; hydraulic cylinders; universal joints being machine parts; cereal processing machines, namely, barley press rollers; rice mills or rice milling systems, namely, rice milling machines, electric rice milling machines for household use; mixing machines; color sorting machines; rolls in the nature of roller conveyors for glass conveyance; rolls in the nature of roller conveyors for steel plate conveyance; suction roll shells for paper making machines; filling machines in the nature of gas filling devices; filling machines in the nature of liquid filling devices; apparatus for disposing incinerated ash in incinerators in the nature of attachments for working vehicles such as tractors and machines such as tillers; waste landfill installations, namely, water intake units, sedimentation units, filtration units, toxics removal units, effluent purification units and dehydration units, all being components of waste landfill; toxics removal apparatus for use in waste landfill installations, namely, calcium removal units, chrominance control units, heavy metal removal units, boron adsorption units, dioxin decomposition units and desalination units; photochemical decomposition apparatus for use in waste landfill installations, namely, calcium removal units, chrominance control units, heavy metal removal units, boron adsorption units, dioxin decomposition units and desalination units; desalination units for use in waste landfill installations; chelating adsorption towers for use in waste landfill installations; contact aerators for use in waste landfill installations; rice milling machines for household purposes; conveyors, namely, apparatus for sludge conveyance in the nature of loaders for incinerators;</p>	

Country	Mark	Ser. No.	Date Filed	Reg. No.	Date Reg.	Goods/Services	Status
US		85/723202	7-Sep-2012	4,483,421	18-Feb-2014	<p>conveyors, namely, waste conveyors for use in waste water treatment installations; mechanical discharging hoppers for use in waste water treatment installations; apparatus for exhaust treatment for diesel engines and their structural parts and fittings; apparatus for catalytic reaction for exhaust purification for diesel engines and their structural parts and fittings; apparatus for oxidative catalytic reaction for exhaust purification for diesel engines and their structural parts and fittings; apparatus for catalytic reaction, for oxidation of nitrogen oxide for exhaust purification for diesel engines and their structural parts and fittings; diesel engine filters for filtering diesel soot and particle matters and their structural parts and fittings; diesel engine catalytic filters for filtering diesel soot and particle matters and their structural parts and fittings; vending machines; ticket-vending machines; self-service ticket-vending machines; automatic ticket dispensing vending machines; metal machine parts, namely, packings for pumps; skid steer loaders; machine elements for land vehicles, namely, cams</p> <p>(int. cl. 9) Wireless and wired telemonitoring systems for pumps consisting of computer hardware and computer software used to monitor the status of machinery; electric control panels; switchboards; internet communication equipment, namely, computer hardware and communication software for providing access to the internet; transmitters for telecommunication, namely, radio and telephone transmitters; electrical controllers, namely, electronic remote controllers of signals; radiotelephony sets; computers; electronic display screens for tractors; electronic display screens for agricultural machines; batteries for agricultural machines; gas filling devices, namely, gasometer and gas meters; liquid filling devices, namely, liquid level sensors, automatic liquid-level control machines and instruments; powder and particle feeders and gravimetric feeders in the nature of weighing feeders; hopper scales; belt scales; conveyor scales; poidometers; weighing feeders; platform scales; explosion-proof scales; waste weighing scales; electronic balance scales; hook scales; truck scales; weight scales; electronic indicators being a control center of weighing system and functioning as an amplifier that receives data output from the load cell; rice taste analyzers that analyze the taste and ingredients of rice and husked rice by exposing a sample to the light; load cells, namely, electrical transducer; computer aided design apparatus, namely, computers and computer software for use with computer aided design and computer hardware; thermostats; machines for quality assessment of fruits and vegetables, namely, instruments for measuring fruit and vegetable quality parameters; atmosphere control apparatus, namely, climate control systems consisting of digital thermostats, and air conditioning, heating, ventilation, and drying control devices;</p> <p>money changing machines, namely, cash registers, electronic currency converters, currency counting and sorting machines and machines for exchanging foreign monies; electronic advertisement boards; coin counting or sorting machines; computer programs for use in controlling agricultural machines; hard disk surface checking apparatus, namely, apparatus for detecting defects, blots and other problems on the hard disk surface; foreign matter testing apparatus for use in hard disk manufacturing, namely, apparatus for detecting chippings on the hard disk surface; semiconductor testing apparatus; three-dimensional measuring apparatus, namely, for measuring three-dimensional shape of semiconductor substrate; film thickness meters; quality checking apparatus, namely, egg testing machines; automatic combustion control devices, namely, electrical controlling devices</p> <p>(int. cl. 11) Sludge incinerators; incinerators; incinerator combustion control devices, namely, electrical control devices; air preheaters, namely, heating units for incinerators, heating units for atmosphere control apparatus; heat exchanging apparatus being heat exchangers; heat exchangers for chemical processing; sludge drying apparatus, namely, dryers used for the drying of sludge by steam, fire, compressed air and compressed gases; drying apparatus for chemical processing; apparatus for dumping sludge in sludge incinerators, namely, screw conveyors, belt conveyors and skip hoists;</p>	Registered

Country	Mark	Ser. No.	Date Filed	Reg. No.	Date Reg.	Goods/Services	Status
						<p>apparatus for cooling waste gas discharged from incinerators, namely, cooling equipment that cools the waste gas discharged from incinerators by spraying water and other coolants into the gas; apparatus for collecting dust in waste gas discharged from incinerators, namely, electric dust collectors and bug collectors; apparatus for treating waste gas discharged from incinerators, namely, apparatus for removing sulfur oxides, hydrochloric acids, dioxins and other hazardous substances in the waste gas; apparatus for humidifying incinerated ash in incinerators, namely, humidifiers; apparatus for disposing incinerated ash in incinerators, namely, apparatus for solidifying the incinerated ash in globular form; apparatus for fermentative treatment of organic waste; apparatus for fermentative treatment of organic waste for household purposes; plumbing fittings, namely, valves for water or gas plumbing; plumbing fittings, namely, valves for pipeline; water fountains; mist generating apparatus in the nature of misting systems for outdoor cooling and ornamental misting systems; air conditioning apparatus; industrial air purifiers; air-heaters, namely, apparatus for heating combustion air in the incinerator and apparatus for heating air taken into or exhausted from the air conditioner; air reheaters, namely, apparatus for reheating heated combustion air in the incinerator and apparatus for reheating heated air taken into or exhausted from the air conditioner; industrial water purifying apparatus, sewage water purifying apparatus and waste water purifying apparatus; sewage treatment apparatus, namely, sewage treatment plants, thickening and dewatering machines for use in treatment of sewage, sewage treatment tanks, sewage agitation and aeration tanks, dust eliminators, and sewage treatment units;</p> <p>apparatus for methane fermentative treatment of organic effluent, namely, methane fermentative treatment tanks for use in treatment of liquids including water, industrial effluent and sewage; apparatus for household purposes, for fermentative treatment of organic effluent, namely, methane fermentative treatment tanks for use in treatment of organic materials contained in the household effluent; apparatus for household purposes, for treatment of effluent, namely, treatment tanks for use in purification of household effluent; waste water treatment tanks for industrial purposes in the nature of water purification tanks; septic tanks for industrial purposes; apparatus for treatment of excreta, namely, bioreactor for use in the treatment of waste, environmental control apparatus in the nature of particle activators for use in waste water treatment; waste water treatment tanks for household purposes in the nature of waste water purification units; apparatus for treatment of domestic waste water in the nature of waste water purification units; waste water purification units in the nature of dust collecting apparatus for use in treatment of waste water; waste water purification units in the nature of dust eliminators for use in waste water treatment installations, grit lifters for use in waste water treatment installations, grit washers for use in waste water treatment installations, grit collectors for use in waste water treatment installations, screen residue washers for use in waste water treatment installations, waste water treatment apparatus in the nature of sludge collectors for use in waste water treatment installations; scum removers in the nature of scum separators and scum skimmers for the cleaning and purification of liquids for use in waste water treatment installations; air diffusers for use in waste water treatment installations; water treatment equipment, namely, stirrers for use in waste water treatment installations; carriers of microorganisms for use in waste water treatment installations, namely, granular pieces or small pieces of inorganic substances such as anthracite and granular ceramic or organic substances such as polyethylene and polyurethane used as carriers to which microorganisms are attached;</p>

US	KUBOTA SMU PACKAGE	87/085231	27-Jun-2016			(int. cl. 11) Membrane filtration apparatus for the treatment of wastewater; ceramic membrane filtration apparatus for the treatment of wastewater; wastewater filtration apparatus using polymeric membranes; wastewater filtration apparatus using vinyl chloride membranes; wastewater filtration apparatus using polyethylene membranes; wastewater filtration apparatus using polyvinylidene fluoride membranes; wastewater filtration apparatus using polyether sulfone membranes; wastewater filtration apparatus using polytetrafluoroethylene membranes; filtration apparatus for the treatment of wastewater; filtration membranes for membrane filtration apparatus for the treatment of wastewater; filter units for membrane filtration apparatus for the treatment of wastewater; casings for membrane filtration apparatus for the treatment of wastewater; membrane filtration cartridges for the treatment of wastewater; replaceable membranes for membrane filtration apparatus for the treatment of wastewater; air diffusers for membrane filtration apparatus for the treatment of wastewater; wastewater treatment tanks for household purposes for purification and treatment of household effluent; industrial water purifying apparatus; sewage water purifying apparatus; waste water purifying apparatus; apparatus for methane fermentative treatment of organic effluent, namely, methane fermentative treatment tanks for use in treatment of liquids including water, industrial effluent and sewage; apparatus for household purposes, for fermentative treatment of organic effluent, namely, methane fermentative treatment tanks for use in treatment of organic materials contained in the household effluent; septic tanks for industrial purposes; apparatus for treatment of excreta, namely, bioreactor for use in the treatment of waste; apparatus for treatment of excreta, namely, environmental control apparatus in the nature of particle activators for use in wastewater treatment; waste water purification units in the nature of dust collecting apparatus for use in treatment of waste water; water treatment equipment, namely, filter basins for use in waste water treatment installations; water purification tanks in the nature of nitrification tank equipment for use in waste water treatment installations; deodorizing units utilizing microorganisms in the nature of biological deodorization apparatus for use in waste water treatment installations; activated carbon deodorizing units in the nature of biological deodorization apparatus for use in waste water treatment installations; deodorizing units utilizing chemical action of chemicals in the nature of biological deodorization apparatus for use in waste water treatment installations; soil deodorizing units in the nature of biological deodorization apparatus for use in waste water treatment installations; water purification installations; wastewater and sludge treatment equipment, namely, cartridge filtration units	Allowed
US	KUBOTA SUBMERGED MEMBRANE UNIT	76/458352	8-Oct-2002	3,018,224	22-Nov-2005	(int. cl. 11) Wastewater and sludge treatment equipment, namely, cartridge filtration units	Registered
US	KUBOTALINK	75/258341	17-Mar-1997	2,297,248	7-Dec-1999	(int. cl. 9) Computer software for use in storing, retrieving and communicating information concerning farm tractors, garden tractors, lawn tractors, gasoline, and diesel engines, excavators, wheel loaders, implements, accessories and attachments for the same, and parts for the same, ordering, servicing, warranty claims, marketing, and advertising regarding the same (int. cl. 35) Online wholesale ordering services in the field of farm tractors, garden tractors, lawn tractors, gasoline, and diesel engines, excavators, wheel loaders, implements, accessories, parts, and attachments for the aforementioned products (int. cl. 42) Computer services, namely, providing an interactive computer data base in the field of farm tractors, garden tractors, lawn tractors, gasoline and diesel engines, excavators, wheel loaders, implements, accessories, parts, and attachments for the same aforementioned products as well as ordering, servicing, warranty claims, marketing, and advertising for the aforementioned products	Registered

Hitchcock Evert LLP - Intellectual Property Law
750 N. St. Paul St., Suite 1110
Dallas, Texas 75201

US	K-VERTIBLE	87/049510	25-May-2016			(int. cl. 12) Tractors and their parts and fittings; tractors for agricultural purposes and their parts and fittings; utility vehicles and all-terrain vehicles and their parts and fittings; automobiles and their parts and fittings; nonelectric prime movers in the nature of internal combustion engines for land vehicles; motors and engines for land vehicles	Published
US	KWRS	85/974596	1-Jul-2013			(int. cl. 7) Fuel reforming systems comprised of fuel reformers, diesel particulate filters, air pumps, and fuel pumps to prevent carbons from being attached to or make carbons difficult to be attached to inner portions of purification systems of exhaust gases of diesel engines, sold as a unit; fuel reforming systems comprised of fuel reformers, diesel particulate filters, air pumps, and fuel pumps to prevent carbons from being attached to or make carbons difficult to be attached to inner portions of purification systems of exhaust gases of internal combustion engines, sold as a unit; fuel reforming systems comprised of fuel reformers, diesel particulate filters, air pumps, and fuel pumps to remove carbons attached to inner portions of purification systems of exhaust gases of diesel engines, sold as a unit; fuel reforming systems comprised of fuel reformers, diesel particulate filters, air pumps, and fuel pumps to remove carbons attached to inner portions of purification systems of exhaust gases of internal combustion engines, sold as a unit; non-electric prime movers, not for land vehicles; and parts, fittings and accessories of all the aforesaid goods, namely, fuel reformers, diesel particulate filters, air pumps not for land vehicles and fuel pumps (int. cl. 12) Air pumps for land vehicles for use in fuel reforming systems; non-electric prime movers for land vehicles, not including their parts; and mechanical elements for land vehicles, namely, shafts, axles, spindles, axle and wheel bearings, shaft couplings and connectors, toothed wheels and gears, roller chains, power transmission belts, brakes, shock absorbers, shock absorbing springs for motor cars, gaskets for shock absorbers, exhaust gaskets, and air cleaning gaskets and valves	Allowed
US	LOWBOY	78/473314	25-Aug-2004	3,628,741	26-May-2009	(int. cl. 7) Engine generators	Registered
US	MERT	75/540474	21-Aug-1998	2,457,827	5-Jun-2001	(int. cl. 6) Ethylene pyrolysis furnace accessory, namely, a metal cast cracking tube (int. cl. 11) Heat exchangers and parts thereof	Registered
US	ORANGE PROTECTION PROGRAM	77/465707	5-May-2008	3,629,895	2-Jun-2009	(int. cl. 36) Providing extended warranties on tractors, mowers, construction equipment, utility vehicles, and utility equipment	Registered
US	POWER KRAWLER	77/491967	5-Jun-2008	3,839,439	24-Aug-2010	(int. cl. 12) Tractors and structural parts therefor; vehicle and tractor parts, namely, crawler tracks	Registered
US	PUT 'EM ON - KEEP 'EM ON	74/469845	15-Dec-1993	1,877,060	31-Jan-1995	(int. cl. 42) Promoting public awareness of the need for and use of roll-over protective structures and seat belts for tractors	Registered
US	SAFETY IT'S THE WAY TO LIVE!	74/469846	15-Dec-1993	1,877,061	31-Jan-1995	(int. cl. 42) Promoting public awareness of the need for and use of roll-over protective structures and seat belts for tractors	Registered
